

# Is Your Diabetic Peripheral Neuropathy (DPN) Keeping You from Gliding Through Life?

## Consider Enrolling in a Research Study for Patients with DPN

### Study Criteria

To participate in this study, patients must:

- Be 18 to 75 years old
- Be diagnosed with type 2 diabetes
- Have a hemoglobin A1C of less than or equal to 11.0
- Have diabetic peripheral neuropathy in their lower extremities (legs/feet) for at least 4 years with related pain being experienced within the last 6 months
- Discontinue pain medications for DPN and agree to use only acetaminophen, as needed, for breakthrough pain related to DPN

Other eligibility criteria apply. Study participants receive study-related medical exams and study drug at no cost. Compensation for time and travel is available.

**This study is actively enrolling.**
